

A ONE-STOP SHOP WITH ADP HELPS ACHIEVE RESULTS

LevCo Technologies is a fast-growing IT solutions provider with six locations across the U.S., focused on delivering practical, strategic technology solutions tailored to client needs. As the company expanded, it required scalable systems to support payroll, compliance and employee experience.

BUSINESS CHALLENGES

Payroll and HR limitations

Multistate compliance challenges

Costly, time-consuming onboarding

QUICK FACTS

Company: LevCo Technologies

Industry: Information Technology Solutions

Employees: 50

Headquarters: Vero Beach, FL

ADP Products: RUN Powered by ADP®

Interviewee: Tracey Levy, Partner and Chief Compliance Officer

"We needed a one-stop shop and a resource that could provide easy payroll, benefits and compliance capabilities surrounding everchanging state laws to help prevent costly mistakes. We found that with RUN."

— **Tracey Levy**, Partner and Chief Compliance Officer, LevCo Technologies

“The ADP Mobile app has helped simplify our processes and saves me a lot of time. Our employees can log in to ADP and see everything in real time. They can change their address, manage their deductions and do everything on the back end themselves, whereas, in the past, I had to do that for them.”

Partner and Chief Compliance Officer,
LevCo Technologies

THE PROBLEM

Outgrowing their existing payroll and HR system

As LevCo Technologies grew, their previous system could no longer support their expanding needs. Managing payroll, HR and compliance became increasingly complex, particularly with employees spread across multiple states.

The company also lacked integrated benefits offerings and efficient onboarding tools, leading to time-consuming manual processes and increased administrative burden.

THE CHALLENGE

Finding a scalable, all-in-one solution

LevCo needed a comprehensive platform that could unify payroll, benefits administration and compliance support. The solution needed to scale with growth, simplify multistate compliance and improve operational efficiency, all while reducing risk and manual work.

THE BENEFITS

Integrated HR, compliance tools and improved employee experience

With RUN Powered by ADP (RUN), LevCo Technologies gained:

- A single platform for payroll, benefits and HR management
- Built-in compliance support and updates across multiple states
- Access to Employee Handbook Wizard for easy policy updates
- Integrated benefits including 401(k), workers' compensation and health plans
- Employee self-service tools and mobile access

“I love the Employee Handbook Wizard — it's been a lifesaver. We have employees in several states, and when the state laws change, I'm immediately notified, update my handbook and our employees log in and acknowledge it. I don't have to worry about being non-compliant or if I'm going to get sued. It helps me sleep at night,” Tracey says.

Employees also benefit from a modern self-service experience, allowing them to manage their information independently and in real time.

THE SOLUTION

A centralized platform to support growth and compliance

By switching to RUN, LevCo consolidated payroll, HR and compliance into one intuitive system. The platform provides real-time updates on changing regulations and simplifies administrative processes across the business.

"ADP allows us to provide a great experience for our employees and ease the burden on us," Tracey says.

THE RESULTS

Greater efficiency, reduced risk and accelerated growth

With ADP, LevCo Technologies has streamlined payroll, onboarding and compliance — enabling the company to focus on growth rather than administrative tasks.

Onboarding has become faster and less resource-intensive, eliminating the need for temporary help and reducing stress for both HR and new hires.

"I used to dread the new hire process because of all the manual steps I'd also have to manage. With ADP, it's no longer stressful for me because all the forms are available for our employees to complete, nice and easy, before they even start their first day of work," Tracey says.

Ultimately, RUN has delivered measurable ROI through time and cost savings, improved compliance confidence and a better employee experience, helping position LevCo as an employer of choice.

"The ROI RUN has helped us realize is time and cost savings with easier payroll, efficient onboarding and avoiding penalties by being up to date with compliance matters."
