

AT YOUR SERVICE

BUILDING TAX SUCCESS FROM DAY ONE

Meet Tax Implementation Consultant **Alexandria Tycenski**

When it comes to business taxes, Alexandria Tycenski's motto is getting her clients on the right track from the start. With a background in operations and payroll, she's equipped with the perfect foundation for positioning ADP TotalSource® clients for long-term success while building trusted relationships.

“

Most businesses are so focused on growth and serving their clients that tax planning can get pushed to the back burner. That's where we come in with the tax support they need.

Working with new ADP TotalSource clients, we ensure that their payroll is set up for tax compliance. During our initial consultation, we take a deep dive into their accounts, making sure we have the essential documents and proper checks and balances to mitigate any tax penalties or rejections.

By keeping our calls open and conversational, I try to foster collaborative relationships, so clients know we're always working together with their best interests in mind.

If someone has a question outside my expertise — like when a client asked about self-employment forms, which required their CPA — I direct them to the right person. My goal is creating a no-judgment zone where I either help directly or connect our client with the right expert.

Tax implementation consultants thrive on:

- Building tax compliance confidence
- Ensuring support exceeds expectations
- Leveraging ADP's diverse expertise to provide solutions tailored to each client's unique needs

If I don't have an immediate answer, I'll follow up as soon as I find it. This reliability and consistency leaves clients feeling reassured that nothing falls through the cracks. I want them to know that I'm a partner they can count on.
